Dr. Ruben Dewitte

Economist and teacher with 9+ years of experience researching the micro-foundations of macroeconomic models with a particular focus on policy-relevant topics such as international trade and its environmental impact, technological change and innovation, the impact of technological change on labor and product market power, and economic growth. Strong data skills working with large firm-level datasets. Coordinated and led multiple research projects which have been published in leading economic journals such as the *Journal of Political Economy* and the *Journal of Applied Econometrics*. Collaborated with research experts from academia, national banks, and public institutions. Successfully contributed to competitive funding applications and presented at international conferences. Trained and supervised PhD and master students. Hold a Ph.D. in economics from Ghent University and research master in economics from Université catholique de Louvain.

Current Positions

2022–current **Visiting professor**, *Ghent University*, Ghent

2021–current **Postdoctoral research fellow of Research Foundation Flanders (FWO)**, *Ghent University*, Ghent

As a postdoctoral researcher and visiting professor, I divide my time between fundamental research in line with my research interests and teaching. My teaching tasks are listed below.

- Responsible lecturer for the course 'International Trade and Migration' (6 ECTS) in the 'Master of Science in Economics';
- Co-lecturer for the course 'European Economic Integration and Regional Integration Analysis' (9 ECTS) in the Master 'Economics of Globalization and European Integration';
- Consultant for the international economics seminar (6 ECTS across three seminars) in which third-year economic bachelor students learn to analyze the impact of recent trade agreements;
- Supervisor of master dissertations (18-24 ECTS).

Previous Positions

2021 **Research intern**, *National Bank of Belgium*, Brussels

Research internship granted for the research project 'Identifying Latent Heterogeneity in Productivity' that was published as NBB Working Paper no. 428 in 2022.

2020–2021 **Postdoctoral researcher**, *Ghent University*, Ghent

As a postdoctoral researcher, I continued developing my research agenda while providing teaching support. My teaching tasks are listed below.

- Co-lecturer for the course ‘European Economic Integration and Regional Integration Analysis’ in the Master ‘Economics of Globalization and European Integration’ (9 ECTS);
- Lecturer of Gravity in Economics class during the ‘Trade and Migration Policy’ course (6 ECTS) in the ‘Master of Science in Economics’;
- Responsible for the international economics seminar (6 ECTS across three seminars) in which third-year economic bachelor students learn to analyze the impact of recent trade agreements;
- Supervisor of master dissertations (18-24 ECTS);
- Help coordinate the UN simulation game in the bachelor course ‘Economic Globalization’.

2014–2020 **Teaching assistant**, *Ghent University*, Ghent

As a teaching assistant, I worked on my PhD thesis titled “Firm Heterogeneity in International Trade” under the guidance of Prof. Dr. Glenn Rayp while providing teaching support. My teaching tasks are listed below.

- Responsible for the international economics seminar (6 ECTS across three seminars) in which third-year economic bachelor students learn to analyze the impact of recent trade agreements;
- Assist Prof. Dr. Glenn Rayp and Prof. Dr. Ilse Ruyssen with their master course ‘Modern Trade and Migration Policy’ and bachelor courses ‘International Economics’, ‘Economic Globalization’ and ‘Development of Economic Science’;
- Assist with the exercise sessions of the first-year general economics course.

Grants and Funding

2023–2024 **National Bank of Belgium’s MiRDH pilot phase**, ‘*Identifying firm-level markup variation across firms and over time without prices*’, Data and server access with value $\leq 10,000$ EUR

2021–2024 **Postdoctoral research fellowship at Research Foundation Flanders (FWO)**, *Grant 12B8822N*, $\pm 250,000$ EUR

2021–2024 **National Bank of Belgium Research top-up grant junior post-doc**, *FWO21/PDJ/092*, $\pm 30,000$ EUR

2021 **NBB Research internship**, ‘*Identifying Unobserved Heterogeneity in Productivity*’, $\leq 10,000$ EUR

Education

2015–2020 **Doctor of Economics**, *Ghent University*, Ghent, No grade

Thesis title: *Firm Heterogeneity in International Trade*.

Supervisor: *Glenn Rayp*

Examination committee: *Gerdie Everaert, Bruno Merlevede, Luca David Opromolla, Gonzague Vannoorenberghe, Marijn Verschelde*

2014–2015 **Master in General Economics: Research Focus**, *Université Catholique de Louvain*, Louvain-la-Neuve, *Distinction*

Thesis title: *Comparative advantage and heterogeneous firms. The case of Portugal*.

Note: This master was followed to prepare for the Ph.D. program at Ghent University and was obtained while active as a teaching assistant at Ghent University.

2013–2014 **Master of Science in Economics**, *Ghent University*, Ghent, *Great Distinction*

Thesis title: *Middle-income trap and export sophistication. Assessment and economic policy implications*.

- 2012–2013 **Erasmus Exchange Program**, *Université de Neuchâtel*, Neuchâtel
- 2010–2013 **Bachelor of Science in Economics**, *Ghent University*, Ghent, *Great Distinction*
Thesis title: *Measuring human well-being based on an idea of Robert H. Frank.*

Single Courses

- spring 2017 **Research on Productivity, Trade, and Growth: Theory and Practice**, *Tinbergen Institute*, Amsterdam, No grade
This course focused on empirical research using firm-level data. It introduced dynamic firm models, productivity estimation techniques, and structural modeling of productivity, trade, and growth. It was taught by Prof. Dr. Eric Bartelsman, Prof. Dr. Jan de Loecker and Prof. Dr. Jo Van Biesebroeck.
- spring 2017 **Economic Growth**, *Kiel Institute for The World Economy*, Kiel, *Greatest distinction*
This course was part of the 2017 'Advanced Studies in International Economic Policy Research'-program. It was taught by Prof. Dr. Gino Gancia and focused on topics in the area of economic growth and technological progress.
- spring 2017 **Resampling methods with applications**, *Université Catholique de Louvain*, Louvain-la-Neuve, *Greatest Distinction*
This course was part of the 'Master in Statistics'-program. It was taught by Prof. Dr. Germain Van Bever and focused on the theoretical properties of resampling methods and their applications that are useful in statistics and econometrics.
- fall 2016 **Non- and semi-parametric econometrics**, *Université Catholique de Louvain*, Louvain-la-Neuve, *Distinction*
This course was part of the 'Master in Statistics'-program. It was taught by Prof. Dr. Christian Hafner and focused on non- and semi-parametric estimation methods that are often used in econometrics.

Conferences, Workshops & Seminar Presentations

- 2023 ITIM seminar (Ghent, March), ETSG (Guildford, September)
- 2022 Antwerp University Job Market Seminar (Antwerp, January), BORDERS workshop (Ghent, March), CEA (Ottawa, June), ETSG (Groningen, September)
- 2021 ITIM seminar (Ghent, February), CEA (online, June), vNAPW (online, June), ETSG (Ghent, September)
- 2019 Workshop on 'Firm heterogeneity in Technical Change' (Ghent, March), DEGIT XXIV (Odense, August), ETSG (Bern, September)
- 2018 Ghent University PhD day (Ghent, May), NAPW (Miami, June), CompNet (Halle, June), ETSG (Warsaw, September)
- 2017 Ugent General Economics Department meetings (Oudenaarde, May), Ghent University PhD day (Ghent, May), RIEF (Lille, June), ETSG (Florence, September).
- 2016 SNDE (Alabama, March), Ghent University PhD day (Ghent, May), Economics of Global Interactions (Bari, September), ETSG (Helsinki, September), Doctoral Workshop in Economics (Namur, December)
- 2015 Internal Seminar (Ghent, May)

Refereeing

European Economic Review, Economic Inquiry, Journal of Productivity Analysis, Empirical Economics, Applied Economics

Administrative Responsibilities

- 2021-current Coordination of the ITIM Seminars at Ghent University, Department of Economics.
- 2016-2018 Coordination (together with Sümeyra Atmaca) of the External Economics Seminars at Ghent University, Department of Economics.

Computer skills

R, Git, STATA, Matlab, Fortran, SPSS, Eviews

Languages

- Dutch Native proficiency
- English Full professional proficiency
- French Professional proficiency
- Spanish Elementary proficiency
